### **Notes to Condensed Interim Financial Statements**

For the three and six months ended September 30, 2022 and 2021 (Unaudited - Expressed in thousands of Canadian dollars, unless otherwise indicated)

# 1. NATURE OF OPERATIONS AND GOING CONCERN

Frontier Lithium Inc. (the "Company" or "FL") was incorporated as 646215 Alberta Inc. on March 13, 1995, under the *Business Corporations Act* (Alberta) and headquartered in Sudbury, Ontario. The Company was formerly called Houston Lake Mining Inc. The name of the company was changed to Frontier Lithium Inc. by Certificate of Amendment dated May 19, 2016. The Company's head office address is 2736 Belisle Drive, Val Caron, Ontario, P3N 1B3 and its registered office address is 421 7th Avenue SW, Suite 4000, Calgary, Alberta, T2P 4K9.

The Company's shares are publicly traded on the Toronto Venture Exchange ("TSX-V") under the symbol "FL", the U.S. based QTCQX Venture Market under the symbol "LITOF" and the Frankfurt Stock Exchange under the symbol "HL2".

The Company is engaged in the acquisition, exploration and development of lithium mineral properties in Ontario, Canada. The Company's flagship asset is the PAK Lithium Property located in Ontario, Canada.

These financial statements have been prepared using International Financial Reporting Standards ("IFRS") applicable to a going concern, which contemplates the realization of assets and the settlement of liabilities in the normal course of business for the foreseeable future as they come due.

These financial statements have been prepared on a going concern basis and do not reflect adjustments to the carrying amounts of assets and liabilities, the reported revenues and expenses and the statement of financial position classification used that would be necessary if the going concern assumption were not appropriate. Such adjustments could be material.

To date, the Company has not earned revenue, has an accumulated deficit of \$66,737 as at September 30, 2022 (March 31, 2022 - \$56,724) and had a net loss of \$4,982 and \$10,013 for the three and six months ended September 30, 2021 respectively (\$2,142 and \$4,931 for three months and six month ended September 30, 2021 - restated). As at September 30, 2022, the Company had cash and cash equivalents of \$13,320 (March 31, 2022 - \$17,683) and positive working capital of \$11,633 (March 31, 2022 - \$17,559). The Company anticipates having sufficient funds to meet its corporate and administrative expenses at least until September 30, 2023. The Company has historically relied on equity placements to fund its operations and repay its liabilities. Management is actively pursuing financing and alternative funding options and is minimizing discretionary expenditures where prudent. While the Company has been successful in the past, there can be no assurance that it will be able to raise sufficient funds in the future. These conditions and events indicate that a material uncertainty exists that may cast significant doubt about the Company's ability to continue as a going concern.

During the three and six months ended September 30, 2022 the PAK Lithium Project camp and operations were not materially impacted by COVID-19. While the Company continues to advance work related to the Pre-Feasibility Study, the timelines and costs for future studies, permitting and exploration could be impacted depending on both the continued duration and severity of the COVID-19 pandemic and, in particular the Company's ability to safely access the project site.

## **Notes to Condensed Interim Financial Statements**

For the three and six months ended September 30, 2022 and 2021 (Unaudited - Expressed in thousands of Canadian dollars, unless otherwise indicated)

# 2. BASIS OF PREPARATION

#### (a) Statement of compliance

The unaudited condensed interim financial statements have been prepared in accordance with IFRS as issued by the International Accounting Standards Board and interpretations of the International Financial Reporting Interpretations Committee which the Canadian Accounting Standards Board has approved for incorporation into Part 1 of the CPA Canada Handbook – Accounting including IAS 34 Interim financial reporting. The condensed interim financial statements should be read in conjunction with the annual audited financial statements for the year ended March 31, 2022. These financial statements were approved and authorized by the Board on November 29, 2022.

#### (b) Basis of presentation

These financial statements have been prepared on a historical cost basis, with the exception of financial instruments classified at fair value through profit or loss ("FVTPL"). In addition, these financial statements have been prepared using the accrual basis of accounting except for cash flow information.

#### (c) Functional and presentation currency of presentation

These financial statements are presented in thousands of Canadian dollars (except for share and per share amounts) which is the functional currency of the Company.

#### (d) Significant accounting policies

The accounting policies followed in these condensed interim financial statements are consistent with those disclosed in Note 2 of the Company's audited financial statements for the year ended March 31, 2022, except for the following:

Effective April 1, 2022, the Company changed its accounting policy prospectively for Property, plant and equipment from declining balance method to straight-line method. The impact of this change is not material.

Useful lives are now as follows:

•	Buildings, plant and mobile equipment	3 to 5 years
•	Right-of-use assets	Over 1 to 4 years

The change in policy has been made because the management believes that the straight-line method reflects more accurately the useful lives of its current property, plant and equipment fixed assets.

# 3. SIGNIFICANT JUDGMENTS, ESTIMATES AND ASSUMPTIONS

The preparation of financial statements in conformity with IFRS requires management to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of expenses and other income for the reporting period.

Judgments, estimates and assumptions are periodically evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. However, actual outcomes can differ from these estimates. Areas of judgment, estimate and assumptions that have the most significant effect on the amounts recognized in the financial statements are as follows:

## **Notes to Condensed Interim Financial Statements**

For the three and six months ended September 30, 2022 and 2021 (Unaudited - Expressed in thousands of Canadian dollars, unless otherwise indicated)

#### Mineral reserves and resources

The estimation of mineral reserves and resources is a complex process involving numerous variables and is based on a professional evaluation using accepted international standards for the assessment of mineral reserves. Estimation is a subjective process, and the accuracy of such estimates is a function of the quantity and quality of available data, the assumptions made, and judgments used in engineering and geological interpretation at the time of estimation.

These assumptions may change significantly over time when new information becomes available and may cause the mineral resources and reserves estimates to change. Changes in the forecasted price of commodities, exchange rates, production costs or recovery rates may have a significant impact on the economic assessment of the mineral resources and reserves and may result in their restatement.

#### Assessment of impairment indicators of exploration and evaluation assets

At each reporting period, management assesses whether there is an indication that an asset or a group of assets, including mineral exploration and evaluation assets, may be impaired and that the carrying amount may not be recoverable. When impairment indicators exist, management estimates the recoverable amount of the mineral exploration and evaluation assets and compares it against their carrying amount. Determining whether facts and circumstances indicate that the Company's mineral exploration and evaluation assets may be impaired and require the recognition of an impairment loss is a subjective process involving significant judgment and a number of interpretations.

Indicators of impairment considered by management include: (i) the period during which the Company has the right to explore in the area has expired during the year or will expire in the near future, (ii) substantive expenditure on further exploration for an evaluation of mineral reserves and resources in the area is neither budgeted nor planned, (iii) based on the technical reports prepared by management's experts, whereby sufficient data exists to support that extracting the mineral reserves and resources will not be technically feasible or commercially viable and (iv) other facts and circumstances suggest that the carrying amount exceeds the recoverable amount.

#### Title to mineral property interests

Although the Company has taken steps to verify title to mineral properties in which it has an interest, these procedures do not guarantee the Company's title. Such properties may be subject to prior agreements or transfers and title may be affected by undetected defects.

#### Income taxes

The Company's management makes significant estimates and judgments in determining the Company's tax expense for the period and the deferred tax assets and liabilities. Management interprets tax legislation and makes estimates of the expected timing of the reversal of deferred tax assets and liabilities. In addition, management makes estimates related to expectations of future taxable income based on cash flows from operations and the application of existing tax law. Assumptions used in the forecast of taxable profit are based on management's estimates of future production and sales volume, commodity prices, operating costs, capital expenditures, and decommissioning and reclamation expenditures. These estimates are subject to risk and uncertainty and could result in an adjustment to the deferred tax asset and a corresponding credit or charge to the statement of operations and comprehensive loss.

A deferred tax asset is recognized to the extent that it is probable that taxable earnings will be available against which deductible temporary differences can be utilized.

#### Share-based compensation and warrants

The compensation cost associated with stock options and warrants granted under the terms of the instrument is measured at the grant date by using the Black-Scholes option pricing model to determine fair value. The Black-Scholes model requires the use of subjective estimates, in particular for the estimated life of options and warrants and the expected rate of volatility in the Company's share price over the life of the instrument, which can materially affect the fair value estimate. The key assumptions used to derive the fair value of options granted in the three and six months ended September 30, 2022 and 2021, respectively, are detailed in Note 8 to the financial statements.

# 7. LEASE OBLIGATIONS

Our lease obligations consist of the following as at September 30, 2022:

Movement in Lease Obligations	
Balance, March 31, 2021	\$ 32
Addition during the year ended March 31, 2022	104
Interest expense during the year ended March 31, 2022	3
Payments during the year ended March 31, 2022	(31)
Balance, March 31, 2022	108
Addition during the period	217
Interest expense during the period	18
Payments during the period	(107)
Lease obligation as at September 30, 2022	\$ 236
Less: Current portion	92
Non-current portion as at September 30, 2022	\$ 144

The Company entered into new vehicle leases during the six months ended September 30, 2022 totaling \$217 (2021 - \$nil). The lease terms are ranged from 3 years to 4 years.

# 8. SHARE CAPITAL

## (a) Common Shares

We are authorized to issue an unlimited number of common shares. The issued and outstanding common shares consist of the following:

	Notes	Number of Shares	Amount
At March 31, 2021		188,847,809	\$ 40,146
Issued under private placement	8a) i, ii	8,275,708	14,372
Issued on purchase of NSR		1,000,000	1,000
Issued on exercise of stock options		3,168,602	2,295
Issued on exercise of warrants		7,367,642	5,095
Share issuance cost		-	(1,172)
Valuation of warrants		-	(295)
Flow-through premium		-	(324)
Broker warrants issued		-	(444)
At March 31, 2022		208,659,761	\$ 60,673
Issued on exercise of stock options		2,057,681	1,611
Issued on exercise of warrants		2,305,548	2,075
At September 30, 2022		213,022,990	\$ 64,359

i. In April 2021, the Company issued 1,822,708 units in a private placement financing for total gross proceeds of \$2,369. Each unit consisted of one common share and one half of one share purchase warrant exercisable at \$1.50 per share for 24 months. The fair value attributed to the 911,354 share purchase warrants was estimated to be \$295. The Company paid financing fees consisting of cash of \$121 and 93,232 warrants to brokers. Each

## **Notes to Condensed Interim Financial Statements**

For the three and six months ended September 30, 2022 and 2021 (Unaudited - Expressed in thousands of Canadian dollars, unless otherwise indicated)

warrant entitles the holder to acquire one common share of the Company for \$1.50 per share for 24 months. The broker warrants were valued at \$30.

ii. In December 2021, the Company issued 6,453,000 shares in a bought deal private placement financing for total proceeds of \$12,003. The Company paid financing fees consisting of cash of \$720 and 387,180 warrants to brokers. Each warrant entitles the holder to acquire one common share of the company for \$1.52 per share for 24 months. The broker warrants were valued at \$414.

#### (b) Warrants

The following table shows the movement in warrants:

	Number of warrants	•	ited average ercise price
At March 31, 2021	12,726,298	\$	0.67
Issued	1,391,766		1.51
Exercised	(7,367,642)		0.56
Forfeited	(292,500)		0.50
At March 31, 2022	6,457,922	\$	0.99
Exercised	(2,305,548)		0.65
Forfeited	(50,000)		0.27
At September 30, 2022	4,102,374	\$	1.19

The fair value of warrants is estimated at the date of grant using the Black-Scholes option-pricing model. Fair values of warrants granted during the three and six months ended September 30, 2022 and 2021 were based on the assumptions noted in the following table:

Three and six months and a Sontombor 30

	Three and six months ended September 50,		
	2022	2021	
Expected volatility	N/A	86%	
Risk-free interest rate	N/A	0.24%	
Expected dividend yield	N/A	Nil	
Expected lives	N/A	2 years	
Expected forfeiture rate	N/A	Nil	

The weighted average share price (fair value) per warrant exercised during the three and six months ended September 30, 2022 were \$1.67 and \$2.66 (three and six months ended September 30, 2021 - \$0.87 and \$0.88, respectively).

The following table reflects the actual warrants issued and outstanding as of September 30, 2022:

Expiry date	Number of warrants	Exercise price (\$)
November 10, 2022 <sup>1</sup>	574,963	0.45
March 15, 2023	2,626,166	1.25
April 13, 2023	707,655	1.50
December 15, 2023	193,590	1.52
Total	4,102,374	1.19

<sup>1</sup> All of these warrants with expiry month of November 2022 have been exercised subsequent to September 30, 2022.

## **Notes to Condensed Interim Financial Statements**

For the three and six months ended September 30, 2022 and 2021 (Unaudited - Expressed in thousands of Canadian dollars, unless otherwise indicated)

#### (c) Stock options

The following table shows the movement in stock options:

	Number of options	Weighted average exercise price				
At March 31, 2021	14,275,000	\$	0.67			
Granted	5,995,000		0.18			
Exercised	(3,168,602)		0.50			
Forfeited	(500,000)		1.05			
At March 31, 2022	16,601,398	\$	0.87			
Granted	750,000		3.16			
Exercised	(2,057,681)		0.49			
Forfeited	(500,000)		1.05			
At September 30, 2022	14,793,717	\$	1.04			

The fair value of option grants is estimated at the date of grant using the Black-Scholes option-pricing model. During the three months ended September 30, 2022, the Company granted nil stock options to directors, employees and consultants (September 30, 2021 - 1,895,000). During the six months ended September 30, 2022, the Company granted 750,000 stock options to directors, employees and consultants (September 30, 2021 - 4,645,000). Fair values of options granted during the three and six months ended September 30, 2022 and 2021 - 4,645,000). Fair values of options noted in the following table:

	Three months ended	l September 30,	Six months ende	d September 30,
	2022	2021	2022	2021
Expected volatility	N/A	77%	80%	77%-78%
Risk-free interest rate	N/A	0.80%	2.7%	0.80% - 0.93%
Expected dividend yield	N/A	Nil	Nil	Nil
Expected lives	N/A	5 years	5 years	5 years
Expected forfeiture rate	N/A	Nil	Nil	Nil

The weighted average share prices (fair value) per option exercised during the three and six months ended September 30, 2022 were \$1.82 and \$3.03 (three and six months ended September 30, 2021 - \$nil and \$0.89, respectively). All stock options granted were vested immediately on grant dates.

Stock options outstanding and exercisable as at September 30, 2022:

Range of exercise price	Number of options	Weighted average exercise price (\$)	Weighted average remaining contractual life (years)
\$0.25-\$1.00	7,613,716	0.60	3.36
\$1.01-\$2.00	5,430,001	1.05	3.41
\$2.01-\$3.16	1,750,000	2.90	4.44
Total	14,793,717	1.04	3.51

## **Notes to Condensed Interim Financial Statements**

For the three and six months ended September 30, 2022 and 2021 (Unaudited - Expressed in thousands of Canadian dollars, unless otherwise indicated)

## **Notes to Condensed Interim Financial Statements**

For the three and six months ended September 30, 2022 and 2021 (Unaudited - Expressed in thousands of Canadian dollars, unless otherwise indicated)

Included in accounts payable is \$27 (March 31, 2022 - \$57) owing to corporations controlled by a director of the Company.

# 12. CAPITAL AND FINANCIAL RISK MANAGEMENT

#### Capital Management

The primary objectives of the Company's capital management policy are to ensure that the Company raises sufficient funds in order to execute its business designed to maximize shareholder value. The Company considers the following items as capital: Cash and cash equivalents, share capital and contributed surplus in the amount of \$97,410 (March 31, 2022 - \$97,725).

When managing capital, which is a broader concept than the "equity" in the statement of financial position, the objectives of the Company are:

- To safeguard the Company's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- To maintain a strong capital base to support the exploration for and development of its mineral deposits.

There have been no changes in the Company's capital management when compared to the prior year except that management transferred approximately \$13.0 million cash to high interest rate Guaranteed Investment Certificate ("GIC") accounts during the first three months ended June 30, 2022 which would generate higher interest income thereby offset operating costs. As at September 30, 2022, the balance was \$9.0 million in the GIC accounts. Management intends to optimize its cash management while continuing to fulfill its operating cash needs.

#### Financial Risk Management

Our activities expose us to a variety of financial risks: market risk, liquidity risk and credit risk. Risk management is carried out by our management team with guidance from the Board of Directors. The Board of Directors also provides regular guidance for overall risk management.

#### (a) Market risk

Market risk is the risk that changes based on market factors, such as commodity prices or foreign exchange rates, which affect the value of our financial instruments.

#### Commodity price risk

Commodity prices fluctuate and are affected by factors outside of the Company's control. The current and expected future spot prices have a significant impact on the market sentiment for investment in exploration companies and may impact the Company's ability to raise equity or debt financing for its ongoing working capital requirements. Management closely monitors commodity prices to determine the appropriate course of action to be taken.

#### Currency risk

Currency risk is the risk that the fair value of, or future cash flows from, our financial instruments will fluctuate because of changes in foreign exchange rates. Our functional currency is the Canadian dollar and major purchases are transacted in Canadian dollars.

We maintain Canadian and United States dollar bank accounts in Canada. Our foreign exchange exposure to fluctuations in the United States dollars exchange rate against the Canadian dollar is not significant as our annual exploration expenditures and a significant portion of our corporate administrative costs are denominated in Canadian dollars.

### (b) Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its payment obligations when they fall due under normal and stress circumstances. The Company monitors its liquidity risk by considering the maturity of its financial

## Notes to Condensed Interim Financial Statements

For the three and six months ended September 30, 2022 and 2021 (Unaudited - Expressed in thousands of Canadian dollars, unless otherwise indicated)

assets and projected cash flow from operations. Where possible the Company utilizes surplus internal funds to a large extent to finance its operations and ongoing projects.

Our future undiscounted obligations as at September 30, 2022 are as follows:

At September 30, 2022	Due w	ithin 1 year	Due betw	een 1 and 5 years	Total
Accounts payable and accrued liabilities	\$	2,685	\$	-	\$ 2,685
Lease obligations		92		144	236
Total	\$	2,777	\$	144	\$ 2,921

### (c) Credit risk

Credit risk is the risk of financial loss to us if a third party fails to meet their contractual obligations and arises principally from our financing activities including deposits with banks and accounts receivable. We maintain substantially all of our cash in bank accounts at select Canadian chartered banks. Management believes credit risk is low with respect to bank deposits and accounts receivable.

# **13. RESTATEMENT**

#### (a) Change in accounting policy

During the year ended March 31, 2022, the Company changed its accounting policy for exploration and evaluation expenditures to expense them as incurred. Management considered that this change in accounting policy will result in clearer, more relevant and reliable financial information by reducing financial reporting complexity. Under the previous accounting policy, exploration and evaluation expenditures were capitalized.

#### (b) Related Party Disclosures

It was determined that there were additional related party transactions in the prior year financial statements that had not been disclosed. The comparative disclosures in Note 11 have been revised accordingly.

#### (c) Prior period adjustment

In the process of preparing the Company's unaudited condensed interim financial statements for the three months and six months ended September 30, 2022, management determined that there were some adjustments that needed to be made for the comparative period three and six months ended September 30, 2021.

The impact on the comparative financial statements resulting from the change in accounting policy changes and due to the prior period adjustments are as follows:

## **Statements of Loss and Comprehensive Loss**

Three months ended September 30, 2021	As previously reported	Change in policy	Prior period adjustment	As restated
Exploration and evaluation expenditures	\$ -	\$ 202	\$ 464 <sup>(1)</sup>	\$ 666

Net change in cash and cash equivalents	(3,083)	-	695	(2,389)
Cash and cash equivalents, beginning of period	10,307	-	38	10,345
Cash and cash equivalents, end of period	\$ 7,224	-	\$ 732	\$ 7,956

## **Notes to Condensed Interim Financial Statements**

For the three and six months ended September 30, 2022 and 2021 (Unaudited - Expressed in thousands of Canadian dollars, unless otherwise indicated)

# **Statements of Changes in Equity**

	As previously reported	Change in policy	Prior period adjustment	As restated
Deficit, March 31, 2021	\$ (32,214)	\$ (13,559)	\$ -	\$ (45,773)
Net loss for the six months ended September 30, 2021	(3,591)	(1,428)	88 (1)	(4,931)
Deficit, September 30, 2021	\$ (35,805)	\$ (14,987)	\$ 88 (1)	\$ (50,704)

<sup>1</sup> There are several adjustment arising from clerical errors in the accounting for the translation of USD denominated bank accounts and timing of deferred tax arising from flow-through shares.

<sup>2</sup> The Company purchased a 2.5% net smelter royalty ("NSR") on the Pakeagama Lake Property during the three months ended June 30, 2021 for total cash proceeds of \$4.0 million and 1,000,000 common shares valued at \$1.0 million. The "additions to exploration and evaluation assets" has been corrected to \$4.0 million which only includes the cash portion of the additions.

<sup>3</sup> \$0.66 million and \$0.69 million were presented incorrectly as "cash restricted for flow-through expenditures" for the three months and six months ended September 30, 2022, respectively. They are now presented as "cash and cash equivalents".

## 14. SUBSEQUENT EVENTS

### a) Bought Deal Prospectus Offering

On November 10, 2022, the Company closed a bought deal prospectus offering and issued 10,465,000 units of the Company, including 1,365,000 units issued to underwriters for the over-allotment option at a price of \$2.20 per unit, representing total gross proceeds of \$23.0 million (the "Offering"). The Offering was completed through a syndicate of underwriters co-led by RBC Capital Markets and Goldman Sachs Canada Inc. (the "Joint Bookrunners"), and included BMO Nesbitt Burns Inc., Canaccord Genuity Corp., Cormark Securities Inc. and Stifel Nicolaus Canada Inc. (collectively with the Joint Bookrunners, the "Underwriters"). The Underwriters received a cash commission equal to 5.5% of the gross proceeds of the Offering.

Each Unit consists of one common share of the Company and one-half of one common share purchase warrant of the Company totaling 10,465,000 common shares and 5,232,500 warrants. Each warrant entitles the holder thereof to purchase one common share of the Company at a price of \$2.75 for a period of 36 months following the closing of the Offering.

The net proceeds of the Offering will be used by the Company to fund exploration and development activities at the PAK Lithium Project for work related to delivery of a potential definitive feasibility study, as well as general administration and corporate purposes. On November 14, 2022, the Company transferred \$22.0 million into a GIC account under the name of the Company.

#### b) Stock Option Plan

The Company's stock option plan (the "Option Plan") was amended and approved by the shareholders on October 3, 2022 at the Annual General Meeting of the Company. The Option Plan provides for stock option awards to be granted by the Board of Directors to certain directors, officers, employees and consultants of the Company that are eligible to receive Options.

The aggregate number of shares may be reserved for issuance under this Option Plan at any point in time is 10% of the issued and outstanding shares as at the date of grant or issuance. In the event an option granted under this Option Plan is exercised, expired, unexercised, or is otherwise lawfully cancelled prior to

## **Notes to Condensed Interim Financial Statements**

For the three and six months ended September 30, 2022 and 2021 (Unaudited - Expressed in thousands of Canadian dollars, unless otherwise indicated)

exercise of the option, the optioned shares that were issuable thereunder will be returned to the Option Plan and will be eligible for re-issuance. The maximum number of common shares optioned to any one optionee shall not exceed 5% of outstanding common shares of the Corporation in any twelve-month period unless the Company has obtained disinterested shareholder approval in respect of such grant and meets applicable stock exchange requirements.

Options granted under the plan may not exceed ten years and typically vest over a three-year period or at terms to be determined by the directors at the time of grant. The exercise price of each option shall be determined by the directors at the time of grant but shall not be less than the price permitted by the policies of the stock exchange(s) on which the Company's common shares are then listed.
